Search help

Exact match supported for author search results
You can perform an exact author search by enclosing the name (first and/or last) of the author in quotation marks.

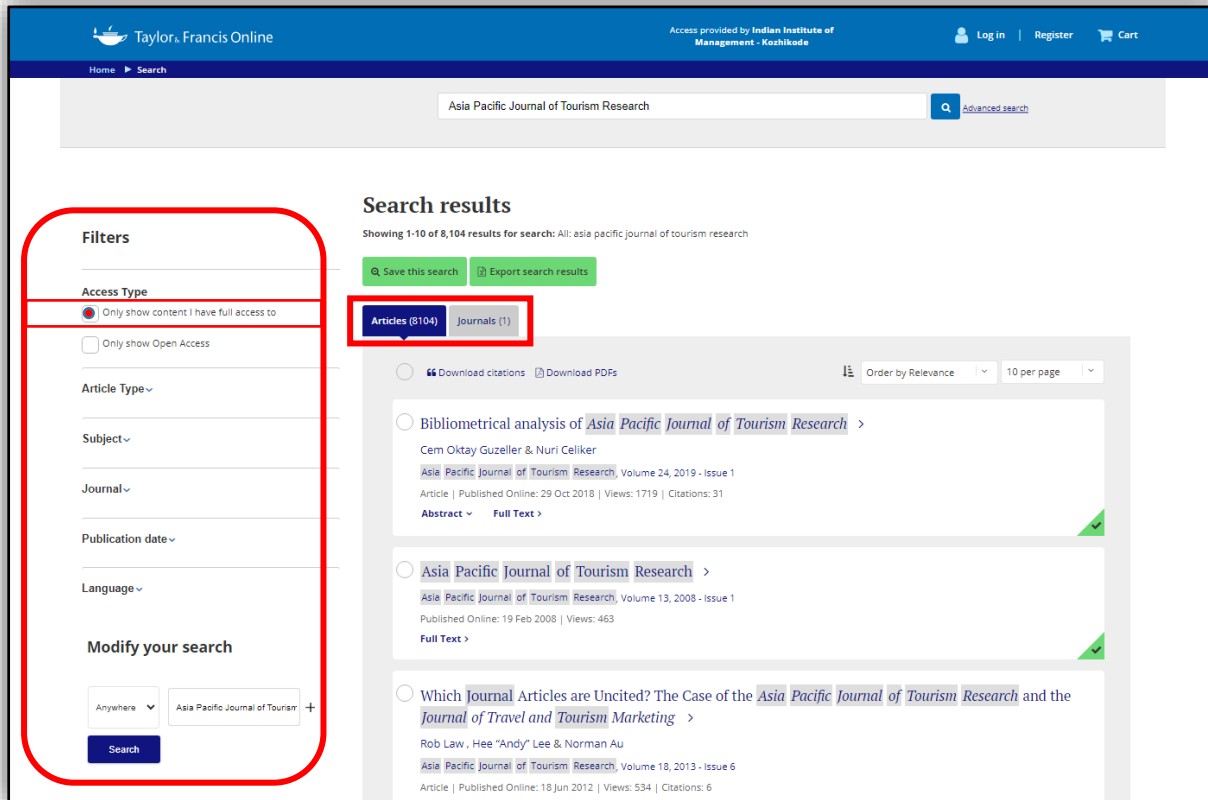

Boolean operators
The Boolean operators AND, OR, and NOT can be applied to search terms.

AND (also + or &)
Use AND to search for documents containing two or more terms. For example, the following query returns documents containing both cat and dog:
cat AND dog
The AND operator is applied by default; for example cat AND dog produces the same results as cat dog.

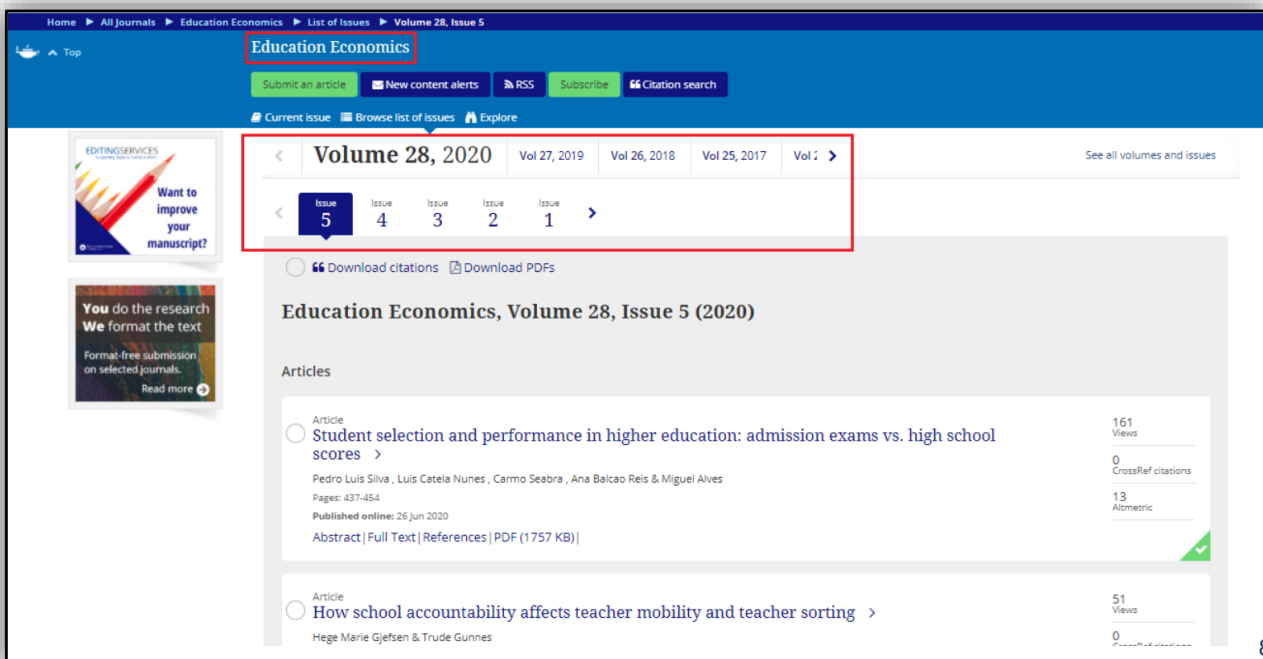

OR
Use OR to search for documents containing at least one of two or more terms. For example, the following query returns documents containing cat, documents containing dog, and documents containing cat and dog:
cat OR dog

NOT
Use NOT to search for documents that do not contain a given term. For example, the following query returns documents containing cat but not containing dog:
cat NOT dog

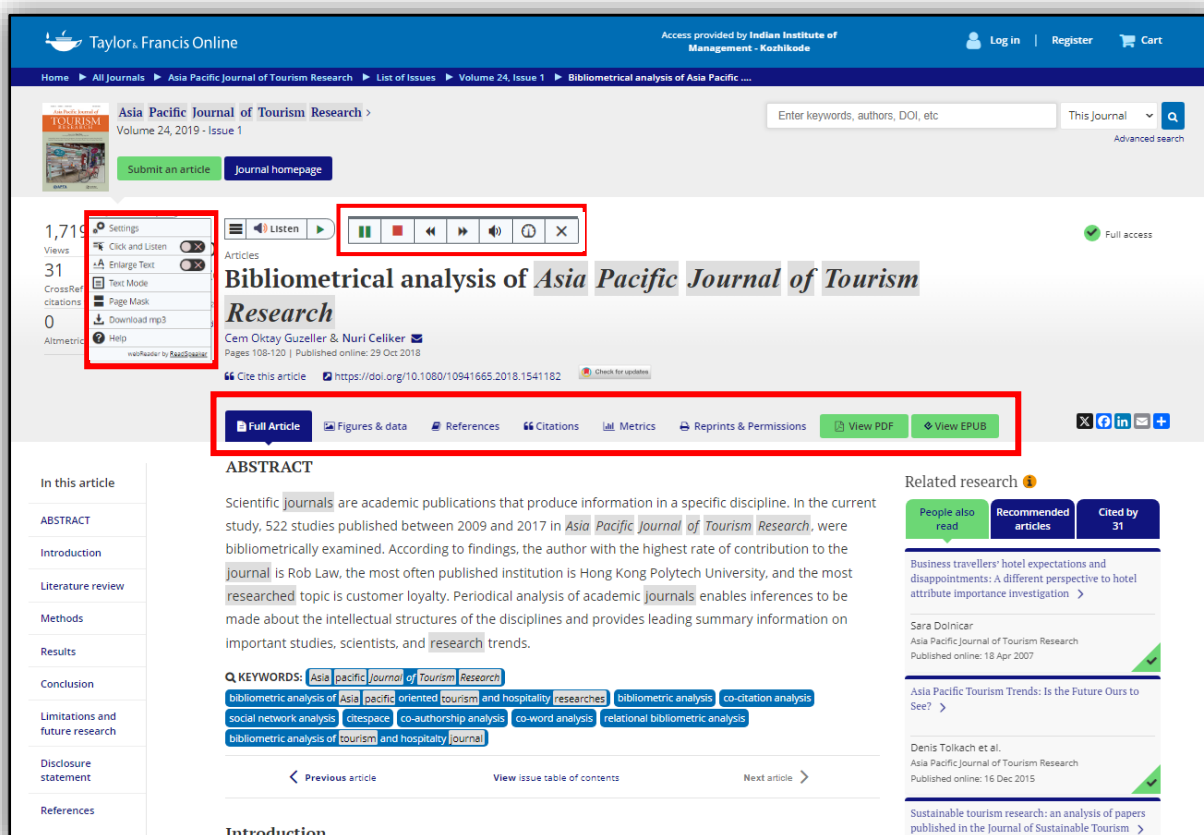

Browsing Content: The search be filtered using various options like access type, subject, publication details, etc. Click on the articles you want to read, citation download. In filter option you have to click on “**Only show content I have full access to**”. You may be able to download PDFs of articles.

Abstract:

Scientific journals are academic publications that produce information in a specific discipline. In the current study, 522 studies published between 2009 and 2017 in *Asia Pacific Journal of Tourism Research*, were bibliometrically examined. According to findings, the author with the highest rate of contribution to the journal is Rob Law, the most often published institution is Hong Kong Polytech University, and the most researched topic is customer loyalty. Periodical analysis of academic journals enables inferences to be made about the intellectual structures of the disciplines and provides leading summary information on important studies, scientists, and research trends.

Keywords: Asia Pacific Journal of Tourism Research, bibliometric analysis of Asia Pacific oriented tourism and hospitality researches, bibliometric analysis, co-citation analysis, social network analysis, citespaces, co-authorship analysis, co-word analysis, relational bibliometric analysis, bibliometric analysis of tourism and hospitality journal
