Search within Sage Research Methods

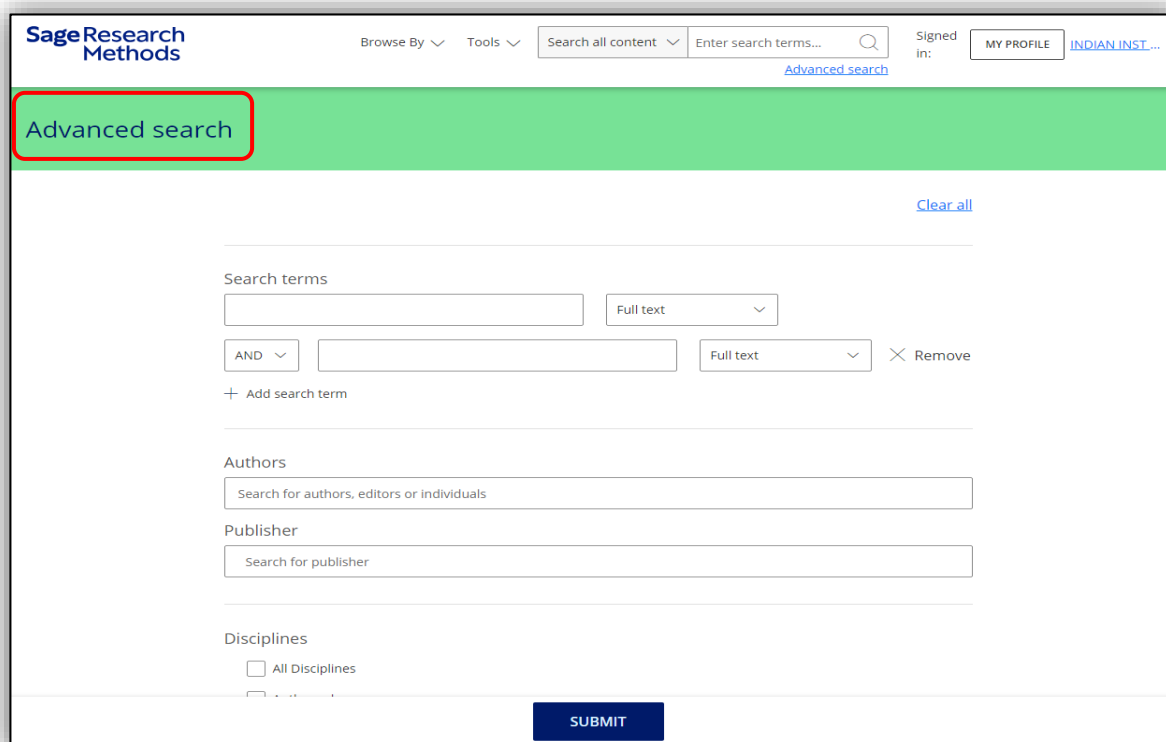

I want to explore...

- Books and Reference**
 Hundreds of titles provide a quick definition of methods to comprehensive explorations of concepts and methods.
- Cases**
 Learn about methods application and research design with stories from researchers in the field.
- Datasets**
 Master quantitative and qualitative data analysis with step-by-step guides and sample data.

Browsing and Searching: Use the search bar to find specific topics, methods, or authors. You can browse by discipline, content type.

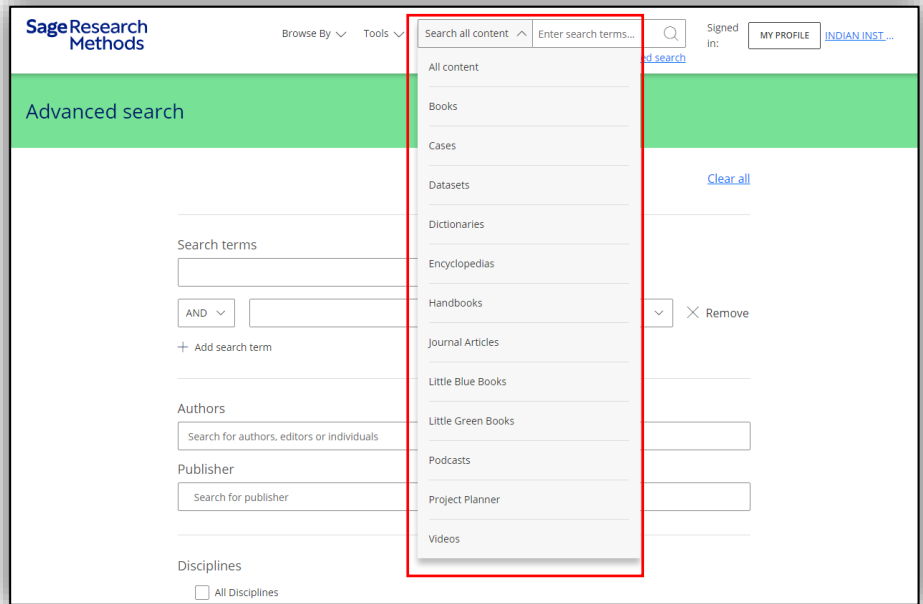

Select “Content available to me” to get all content that we have access. You can also browse advanced search content by method, discipline, or content type.

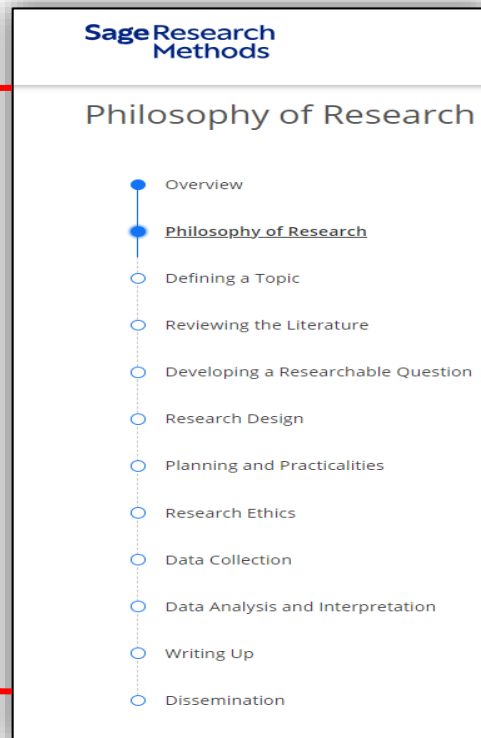

Content Types: Sage Research Methods offers a variety of content types, including books, articles, videos, case studies, and datasets. Each of these is valuable for different stages of the research process.

- Books:** Comprehensive coverage of research methods and concepts.
- Articles:** Shorter pieces that focus on specific topics or issues.
- Videos:** Visual resources for learning about research methods.
- Case Studies:** Real-world examples of research projects and methodologies.
- Datasets:** Access to data for analysis and practice.

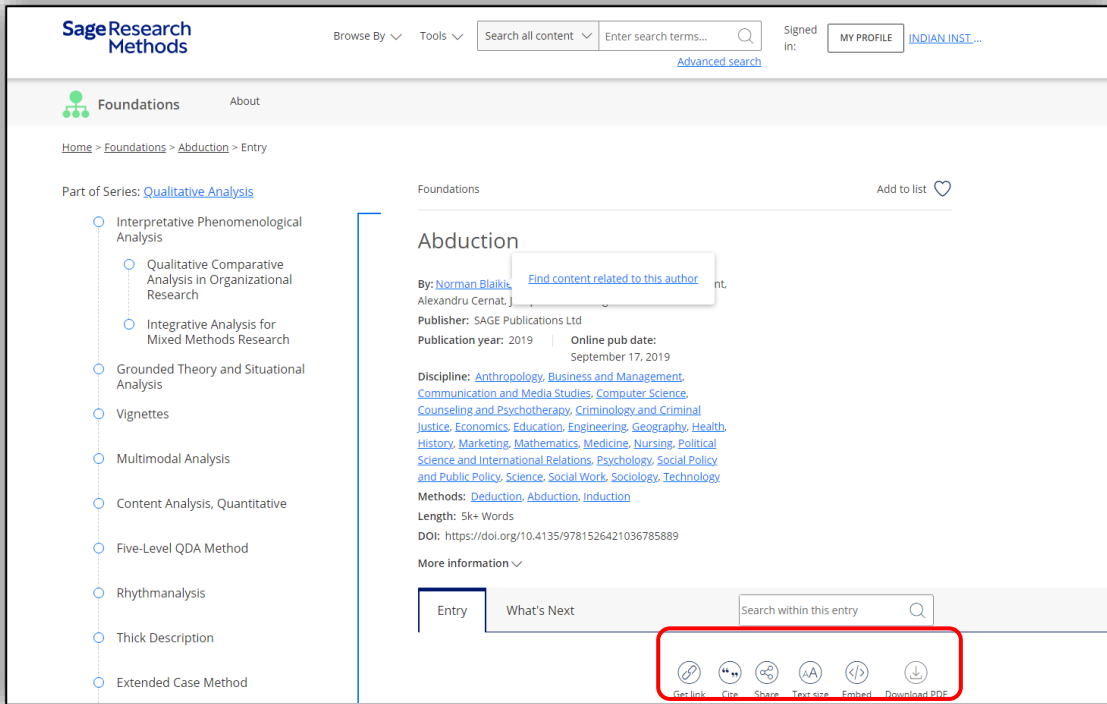

Comprehensive guide to research methodology:

Sage Research Methods Database serves as a comprehensive guide to research methodology, encompassing the following key stages in the research process: an overview of research fundamentals, establishing the philosophy of research, defining research topics, conducting literature reviews, developing researchable questions, designing research studies, addressing planning and practical considerations, ensuring research ethics, selecting and employing data collection methods, analyzing and interpreting data, compiling research findings into a cohesive write-up, and finally, disseminating the outcomes to relevant audiences. This database provides a rich and structured resource for researchers, offering insights and tools for every stage of the research journey.

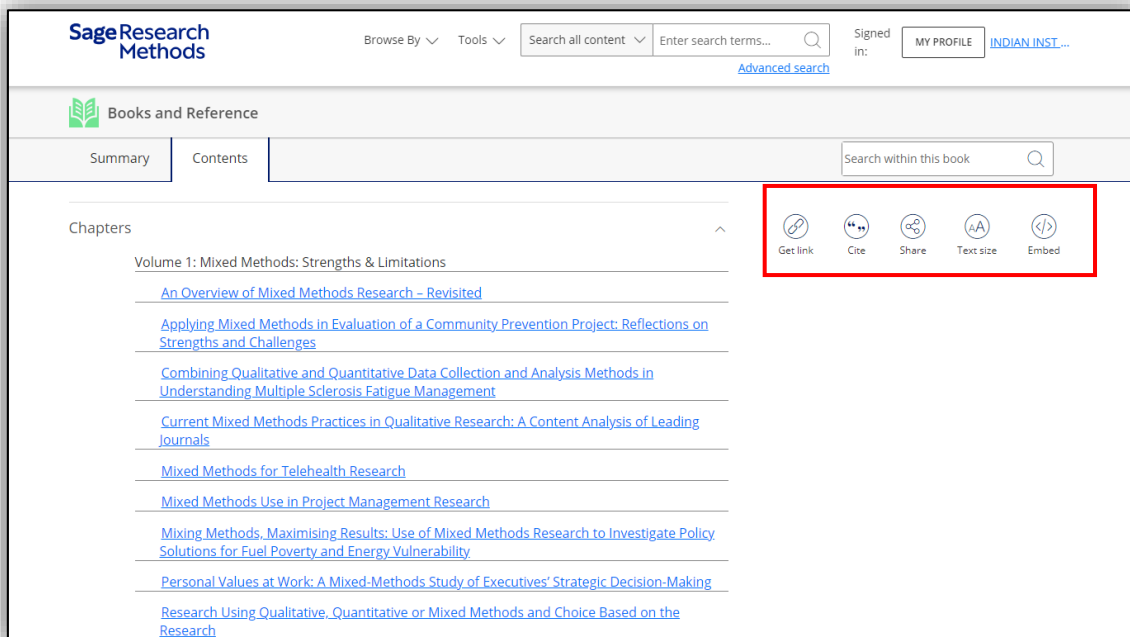

Reading and Downloading Content: Click on a resource to view its details. You can often read the content online, and some resources are available for download.

The screenshot shows the Sage Research Methods interface for the 'Abduction' entry. The page includes a search bar, navigation tabs for 'Foundations' and 'About', and a breadcrumb trail: Home > Foundations > Abduction > Entry. A left sidebar lists various qualitative analysis methods, with 'Abduction' highlighted. The main content area displays the title 'Abduction' and author information: 'By: Norman Blaikie, Alexandru Cernat'. It also lists the publisher (SAGE Publications Ltd), publication year (2019), and online publication date (September 17, 2019). A list of disciplines and methods is provided, along with the length (5k+ Words) and DOI. At the bottom, a navigation bar includes 'Entry' and 'What's Next' tabs, and a search box for the entry. A red box highlights a set of icons for 'Get link', 'Cite', 'Share', 'Text size', 'Embed', and 'Download PDF'.

Citations and References: This database offers citations and references in various styles for the content you access. It also provides a direct link to the content in the SRM database, allowing users to adjust the text size. Furthermore, it offers the option to share the content through social media easily.

The screenshot shows the Sage Research Methods interface for the 'Books and Reference' section. The page includes a search bar, navigation tabs for 'Books and Reference', and a breadcrumb trail: Home > Books and Reference. A left sidebar lists various books and references, with 'Volume 1: Mixed Methods: Strengths & Limitations' highlighted. The main content area displays the title 'Volume 1: Mixed Methods: Strengths & Limitations' and a list of chapters. A red box highlights a set of icons for 'Get link', 'Cite', 'Share', 'Text size', and 'Embed'.
