Emerald E-Books Series

(<https://www.emerald.com/insight/content/books>)

Description: Access to 1800+ Business, Management, Economics and Social Science Frontlist collection from Emerald (Click on "JOURNALS & BOOKS" and select "Book series" and "Only content I have access to")

Major Subject Areas Covered: Academic Literature; Business; Management and Accounting; Economics; Econometrics and Finance; Decision Sciences; Marketing; Human Resource Management; Information Management

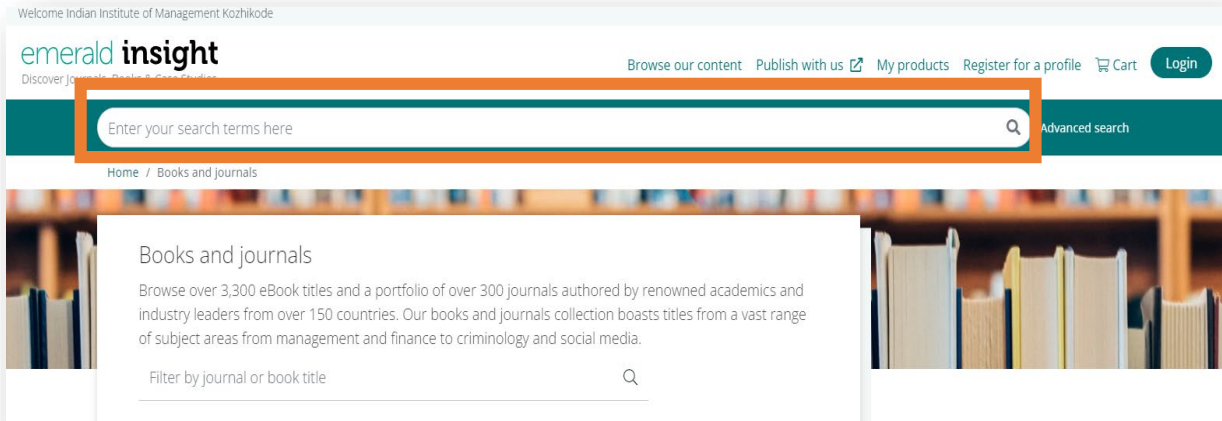

Access Method: IP Authentication + No Registration

How to use:

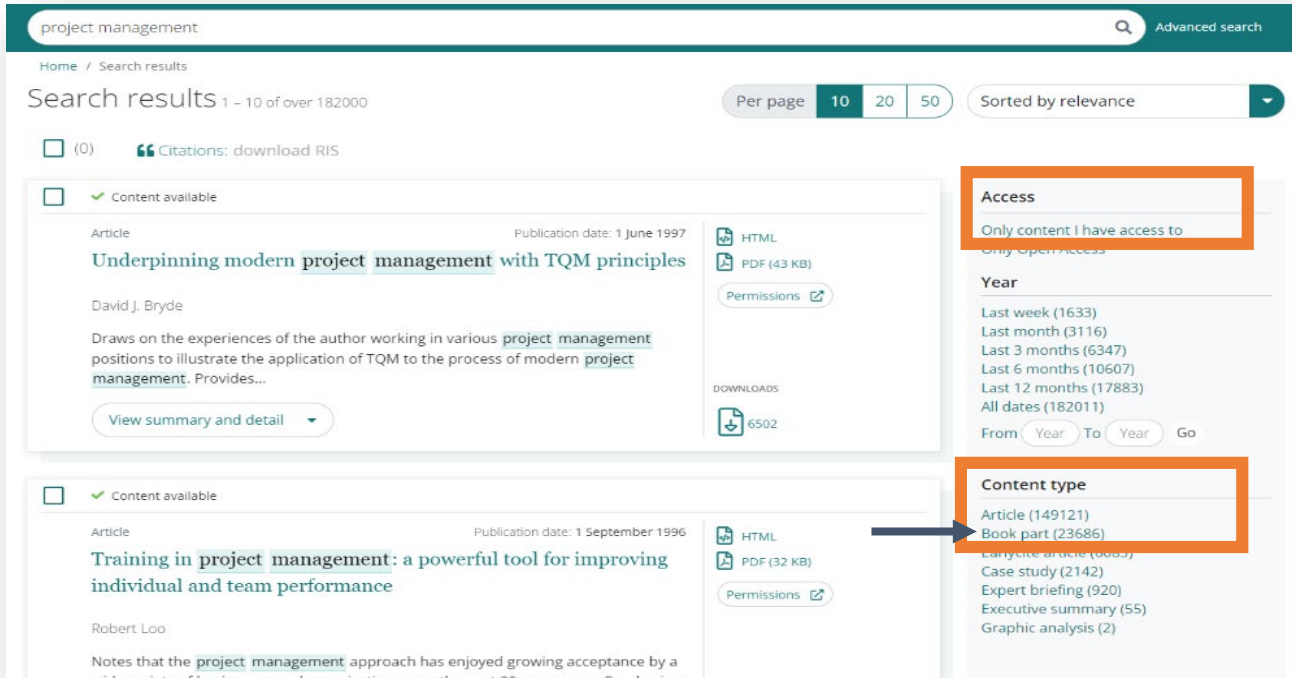

The URL (<https://www.emerald.com/insight/browse/publications>) directs you to Emerald Insight's Books and Journals section.

All of the journals and book volumes are included in the journal and book browse section. By default, the page will arrange all of the material alphabetically.

- 1) Enter the names of certain titles or terms that might be included in the title name to search for books.

- 2) Apply the access filter “Only content I have access to” and content type filter “Book Part”

Abstract

This chapter explains the concept of risk management in construction in relation to project success. The types of risks were examined based on the date of identification which are known risk, unknown risk, new or discovered risk, secondary risk and residual risk. Project risk is not an all-encompassing negative event as it could also cause a positive impact on construction projects. It was acknowledged that project risk in itself could have a positive impact if its risk management process is properly implemented by the construction project team.

- 6) Advanced Search: Boolean operators in advanced search make it easier to combine search terms from chosen fields.

AND is used to narrow a search by finding records that contain both search terms. Leadership and management **NOT** narrows the search, while **OR** expands it to include specified terms. You can also provide a **date range** to limit your search.

Limit the searching to Book part and “**Only content I have access to**” in the access type.

The screenshot shows the 'Advanced search' interface. At the top, there are checkboxes for content types: 'All Emerald content', 'Journal articles', 'Book part' (which is checked), 'Case studies', 'Earlycite', and 'Expert Briefings'. Below this, there are two search rows. The first row has the search term 'project management' in the input field and 'Title' in the dropdown menu. The second row has 'AND' in a dropdown menu, 'risk management' in the input field, and 'All fields' in the dropdown menu. There is an 'Add row' button below the search rows. Further down, there is a 'Date range' section with 'From' and 'To' input fields, both containing the year '2012'. Below that is an 'Access type' section with a dropdown menu set to 'Only content I have access to'. At the bottom right, there are 'Clear' and 'Search' buttons.
