ProQuest One Business is a new solution designed to support the unique teaching & learning needs of business faculty and students. ProQuest One Business combines multiple ProQuest business information databases - including, e.g. the ABI/INFORM Collection and J.P. Morgan Research - to more than 130 million documents. Delivering students and researchers a vast selection of business-focused content from a variety of sources, including newspapers, dissertations, ebooks, videos, business cases, industry reports and more.

ProQuest One Business content includes:

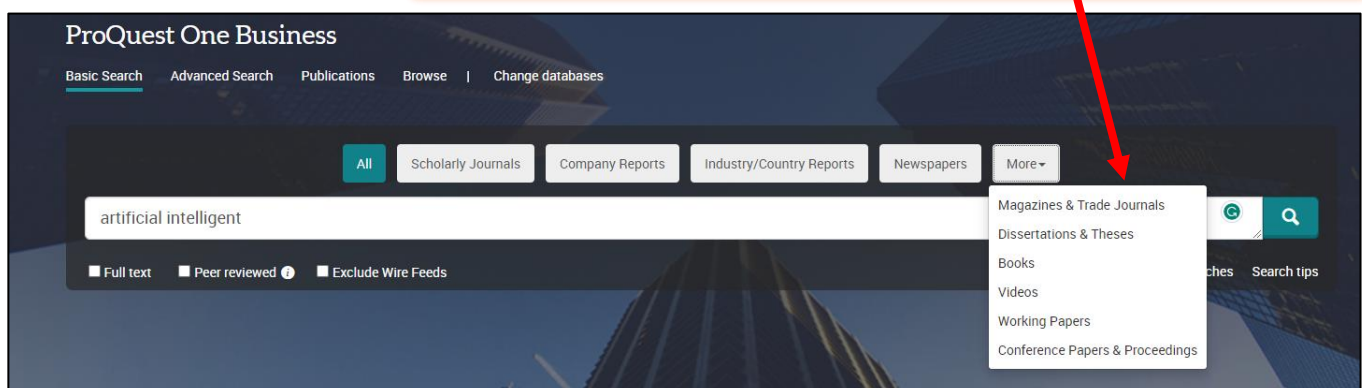

- Company, industry and country reports from providers such as Fitch Solutions and Economist Intelligence Unit; and in-depth analyst reports from J. P. Morgan
- Scholarly journal and ebook coverage from hundreds of publishers
- Full text of the three major global business news sources: the Wall Street Journal, the Economist and the Financial Times
- A robust collection of videos - including interviews with business leaders, case studies and training.

Major Subject Areas Covered: Company and Financial data; Industry Data; Dissertations; Business cases

Access Method: IP Authentication + No Registration

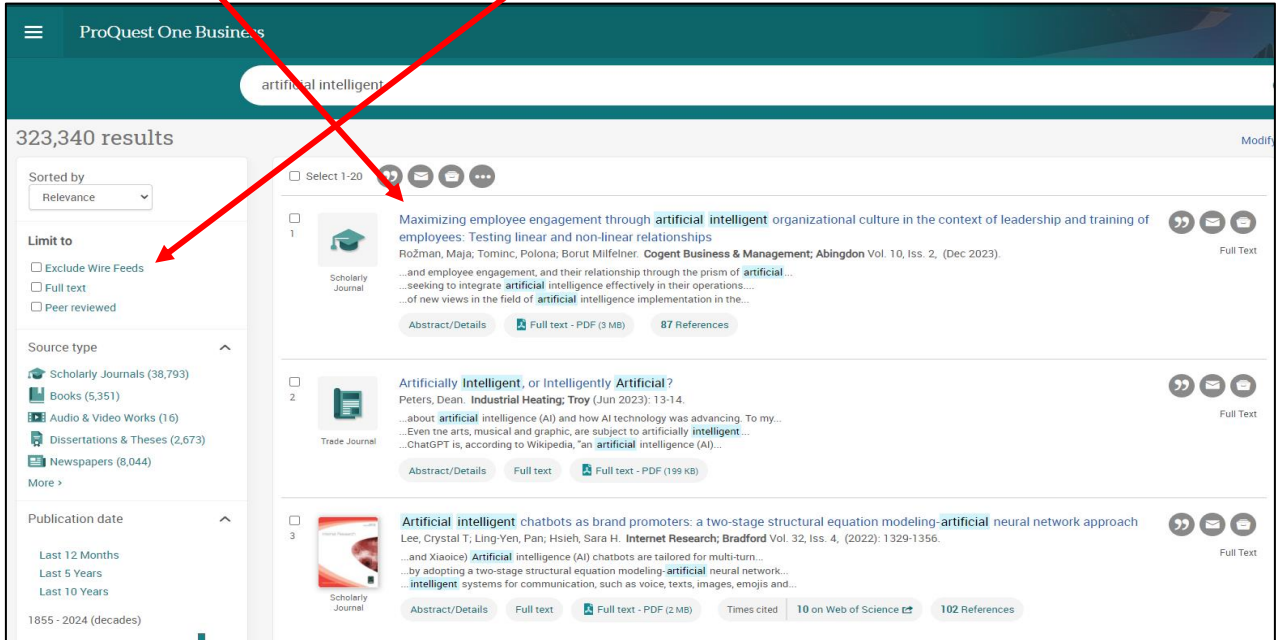

How to use:

Search Scholarly Journals, Company Reports, Industry Country Reports, Newspapers, Magazines & Trade Journals, Dissertation & Theses, eBooks, Videos, Working papers, Conference papers & proceedings.

Description

Ask not what AI can do for a company, rather what artificial intelligence may do to a company. How does a company successfully integrate artificial intelligence into its operations? What are the problems in doing so? And how does the introduction of AI into society change the answer to the first question? As companies delay or even cancel initiatives in artificial intelligence, Four Laws for the Artificially Intelligent redefines possibilities. [Show more](#)
